Summary: I didn't mind being reborn in Katekyo Hitman Reborn, despite the danger. I didn't mind being Tsuna's twin, despite the danger. But of all the damn Flames I could have ended up with, why did it have to be the one that's whole purpose was intentionally drawing danger to it? Self-Insert

Prologue****

x

They were green.

I'm five years old, reborn in a new fleshy body, and my Flames are green.

.

It's been five years since I'd found myself reborn into this new world, a baby twin brother following after me mere moments later. Sawada Chiyohime and Tsunayoshi. Born to parents called Nana and Iemitsu.

I'd, desperately, tried ignoring the signs, but right now, with green flames licking at the edge of my fingers, it's impossible to ignore.

I'm in Katekyo Hitman Reborn.

I've been reborn the twin sister, the elder twin sister, to Sawada Tsunayoshi.

A Sky.

My Sky.

And I am a Lightning Flame. What's their job again, when it comes to their roll in the family?

After all, five years have passed by, and it takes a bit of time to wrangle the correct information from my brain.

'_To draw damage to themselves and away from the rest of the Famiglia, serving as a lightning rod_''.

Well shit.

"Mama! I need to learn how to fight!"

><p>Alternate blurb; There was every chance I was going to end up the Lightning Guardian to my younger brother. And like hell if I was going to get pushed around by that giant Fanboy Levi.**_

Otherwise known as I'm done reading do many abusive twin fics. So, meet Sawada Chiyohime. She's named from the Tokugawa Dynasty; Chiyohime was the eldest daughter of Iemitsu, and thus, Tsunayoshi older sibling. Seemed appropriate.

**A short opening chapter, I know. But, hey, I'm aiming for the actual chapters, not the Prologue, to be about 4,000-5,000 words.
